Bellman, 213
Berry, 97
Berry-Essen theorem, 97
binomial distribution, 31
Birkhoff, 179, 182
    ergodic theorem of, 179, 182
Bochner, 32, 45, 49, 200
    theorem of, 32, 45
      for the circle, 49
Borel, 58
Borel-Cantelli lemma, 58
bounded convergence theorem, 19
branching process, 142
Bucy, 219

Cantelli, 58
Caratheodory
    extension theorem, 11
Cauchy, 35
Cauchy distribution, 35
central limit theorem, 71
central limit theorem
    under mixing , 198
change of variables, 23
Chapman, 117
Chapman-Kolmogorov equations, 117
characteristic function, 31
    uniqueness theorm , 34
Chebychev, 55
Chebychev's inequality, 55
compound Poisson distribution, 77
conditional expectation, 101, 109
    Jensen's inequality, 110
conditional probability, 101, 112
    regular version, 113
conditioning, 101
continuity theorem, 39
control, 213
convergence
    almost everywhere, 17
    in distribution, 38
    in law, 38
    in probability, 17
convolution, 53
countable additivity, 9
covariance, 29
covariance matrix, 29
Cramér, 39

degenerate distribution, 31
Dirichlet, 33
Dirichlet integral, 33
disintegration theorem, 115
distribution
    joint, 24
    of a random variable, 24
distribution function, 13
dominated convergence theorem, 21

Doob, 151, 152, 157, 161, 164
  decomposition theorem of, 157
  inequality of, 152
  inequality of , 151
  stopping theorem of , 161
  upcrossing inequality of, 164
double integral, 27
dynamic programming, 213

ergodic invariant measure, 184
ergodic process, 184
  extremality of, 185
ergodic theorem, 179
  almost sure, 182
  almost sure , 179
  maximal, 182
  mean, 179
ergodicity, 184
Esseen, 97
exit probability, 170
expectation, 28
exponential distribution, 35
  two sided, 35
extension theorem, 11

Fatou, 20
Fatou's lemma, 20
field, 8
  σ-field generated by, 10
filter, 219
finite additivity, 9
Fubini, 27
Fubini's theorem, 27

gamma distribution, 35
Gaussian distribution, 35
Gaussian process, 200
  stationary, 200
    autoregressive schemes, 211
    causal representation of, 200
    moving average representation of , 200
    prediction of , 205
    prediction error of, 205
    predictor of, 205
    rational spectral density, 210
    spectral density of , 200
    spectral measure of , 200
generating function, 36
geometric distribution, 34

Hahn, 104
Hahn-Jordan decomposition, 104

independent events, 51
independent random variables, 51
indicator function, 15
induced probability measure, 23
infinitely divisible distributions, 83
integrable functions, 21
integral, 14, 15
invariant measures, 179
inversion theorem, 34
irrational rotations, 187
