

Summer Undergraduate Research Experience

Are you interested in doing research in mathematics during the summer months?

The Courant Institute's S.U.R.E. Program provides stipends for a limited number of undergraduate math students (juniors or advanced sophomores) to conduct research with a faculty member as a mentor. The project culminates with a report and a presentation to faculty and fellow students early next fall.

If you are interested in participating, please fill out the application below. In order to be selected, you must have a strong background in terms of coursework and grades (Analysis and Algebra are recommended). In addition, your chances of participating in this program are greatly enhanced if you have found a faculty member who can mentor you and if you are part of the Math Honors Program.

We encourage applicants to discuss research interests with a faculty member before applying. If you have any questions regarding the application process or finding a faculty mentor, please contact Beth Markowitz in Warren Weaver Hall Room 626 or by email at beth@cims.nyu.edu.

Name: _____ Major: _____

Expected Graduation (example May 2015): _____

NYU ID number: __N_____ NYU Email Address: _____

US Citizen or Permanent Resident: Yes____ No____

Gender: _____

Math Honors Program: Yes____ No____

What is your home campus? NY____ Shanghai____ Abu Dhabi____ Other____

Faculty Mentor: _____

GPA: _____ Math GPA: _____

Please list your math courses (with grades):

_____	_____
_____	_____
